

For Immediate Release

Henn na Hotel Asakusa Tawaramachi to Open as the World's First Hologram Hotel - Technology Provided by Creative Studio Mzo

Japan (August 22nd 2019) - DMM RESORTS Co., Ltd. ("DMM RESORTS") announces that its video development team Creative Studio Mzo ("Mzo") provided spatial representation and video production technology for the front desk and lobby of Henn na Hotel Tokyo Asakusa Tawaramachi, a new hotel set to open on Sunday September 1st 2019.

■Characters welcome visitors at the world's first hologram hotel
Henn na Hotel Asakusa Tawaramachi, opening on Sunday September 1st 2019, provides a unique entertainment space combining Japanese culture with holograms and other cutting-edge technologies.

Using the latest holographic technology, a dinosaur, a ninja and a butler welcome guests at the front desk. Each character can help guests check in and out in Japanese, English, Chinese, and Korean. Be sure to stop by to see what they are up to in their free time as well.

■ Projection mapping visuals guide guests to the elevators

After checking in with one of the characters, guests are guided to the elevators by projection mapping visuals. Guests will enjoy various projected images including shuriken (hidden hand blade) and large footsteps, depending on the character they checked in with.

■ Entrance depicts Japan's four seasons

The entrance boasts projection mapping visuals that change depending on the season. It will be decorated in autumn colors when it opens in September and is planned to shift to snowflakes in

the winter. Guests can enjoy beautiful visuals that are linked to their actions during check in and check out.
