Design Concept

The design features a spotted garden eel and a splendid garden eel that inhabit the waters near Okinawa. It brings out-of-the-ordinary excitement by adopting a sight of marine life swimming through the city. Lovable creatures in the aquarium-design windows also enhance the passenger experience.

A total of four trains will run ahead of the opening of DMM Kariyushi Aquarium. The fourth design will begin operation between this fall and next spring¹.

¹Departure dates are subject to change.
